

API Structure – App Reviews

Aditya Kulshrestha, 2024-09-01

User Management

GET /auth/confirm

Signs in an existing user. Handled by Supabase.

Data Fetching

All APIs require the user to be signed in via Supabase.

GET /api/user

Returns the user details.

Example response

```
{
  "userId": 138401,
  "name": "John Doe",
  "email": "johndoe@example.com",
  "avatarUrl": "https://ibb.co/asdfabrvbre.jpg",
  "appStoreLink": "https://apps.apple.com/in/app/netflix/id363590051",
  "playStoreLink": "https://play.google.com/store/apps/details?id=com.netflix.mediaclient",
  "credits": 22
}
```

GET /api/billing

Returns the user's billing details.

Example response

```
{
  "userId": 138401,
  "credits": 22,
  "transactions": [
```

```

{
  "id": 1345134,
  "datetime": "2024-08-21 13:45",
  "amount": 270,
  "credits": 3,
  "status": "completed"
},
{
  "id": 1345135,
  "datetime": "2024-09-01 10:15",
  "amount": 2700,
  "credits": 36,
  "status": "pending"
}
]
}

```

GET /api/eagle-view

Returns the eagle's view text

Example response

```

{
  "content": "Customers say that they like algorithm, voice call, and shows. They think Netflix's extensive library and personalized recommendations make it easy to find something to watch, and they appreciate the ability to watch shows even while on a voice call. They also value Netflix's wide array of content and user-friendly interface.\nCustomers also say that casting, household, pricing, locking, and brightness can be improved. For example, Netflix has had issues with lagging and freezing on certain devices, recent updates have affected the ability to cast content and use the app across multiple devices, and there are problems with account access and content brightness on certain devices."
}

```

GET /api/review-stars

Returns the review stars data

Example response

```

[
  {
    "month": "Jan 2024",
    "stars": {
      5: 405,
      4: 267,

```

```

        3: 780,
        2: 560,
        1: 340
    },
    {
        "month": "Feb 2024",
        "stars": {
            5: 564,
            4: 258,
            3: 322,
            2: 863,
            1: 345
        }
    }
}
]

```

GET /api/most-rated

Returns the most-rated reviews

Example response

```

[
  {
    "id": 579723,
    "date": "2023-08-01",
    "rating": 4,
    "thumbs": 150,
    "sentiment": "positive",
    "platform": "Play Store",
    "content": "Netflix is just awesome. I mean who wouldn't think that, it has great content, streaming quality and more. But I give it 4 stars because while watching a movie the controls sometimes automatically get locked."
  },
  {
    "id": 579724,
    "date": "2023-07-15",
    "rating": 5,
    "thumbs": 140,
    "sentiment": "positive",
    "platform": "App Store",
    "content": "Netflix is the first app I bought. Movies, series, TV shows, yes, still more to choose from. I love Netflix. You can always find something to watch."
  }
]

```

GET /api/funny

Returns the funny reviews

Example response

```
[
  {
    "id": 579723,
    "date": "2023-08-01",
    "rating": 4,
    "thumbs": 150,
    "sentiment": "positive",
    "platform": "Play Store",
    "content": "Netflix is just awesome. I mean who wouldn't think that, it has great content, streaming quality and more. But I give it 4 stars because while watching a movie the controls sometimes automatically get locked."
  },

    "platform": "App Store",
    "content": "Netflix is the first app I bought. Movies, series, TV shows, yes, still more to choose from. I love Netflix. You can always find something to watch."
  }
]
```

GET /api/reviews-v-month

Returns the reviews' sentiment vs. month data

Example response

```
[
  {
    "month": "Dec 2023",
    "positive": 2400,
    "neutral": 2800,
    "negative": 4800
  },
  {
    "month": "Nov 2023",
    "positive": 2300,
    "neutral": 2800,
    "negative": 4900
  }
]
```

GET /api/version-v-sentiment

Returns the reviews' version vs. sentiment data

Example response

```
[
  {
    "version": "8.1.0",
    "positive": 50,
    "neutral": 20,
    "negative": 30
  },
  {
    "version": "8.1.1",
    "positive": 55,
    "neutral": 17,
    "negative": 28
  }
]
```

GET /api/topic-v-sentiment

Returns the reviews' topic vs. sentiment data

Example response

```
[
  {
    "topic": "User Interface",
    "positive": 46,
    "neutral": 29,
    "negative": 25
  },
  {
    "version": "Transaction Speed",
    "positive": 55,
    "neutral": 20,
    "negative": 50
  }
]
```

GET /api/true-rating

Returns the true rating, and platform ratings data

Example response

```
{
  "true": 3.7,
  "play-store": 4.2,
  "app-store": 4.0,
  "combined": 4.1
}
```

GET /api/topic-wise

Returns the topic-wise summaries

Example response

```
[
  {
    "topic": "Content Library and Recommendations",
    "content": "Customers praise Netflix for its extensive content library, with a wide variety of movies, TV shows, and documentaries to suit different tastes. Many users appreciate the personalized recommendations based on their viewing history, which helps them discover new shows and movies. The algorithm is generally seen as a strong feature that keeps users engaged by suggesting content they might like.\nOn the downside, some users feel that the recommendations can become repetitive and that the algorithm sometimes fails to suggest new or diverse content. There are also complaints about the removal of certain popular titles, leaving users frustrated when their favorite shows disappear without notice."
  },
  {
    "topic": "Offline Viewing and Downloads",
    "content": "Many customers find Netflix's offline viewing feature incredibly useful, especially for travel or areas with poor internet connectivity. The ability to download content and watch it without needing an internet connection is often cited as a major plus, particularly for long commutes or flights.\nHowever, some users have reported issues with the download functionality, such as content failing to download or disappearing before they can watch it. Others are frustrated by the limitations on the number of downloads or the restrictions that prevent some content from being available offline. Additionally, recent updates have made offline viewing more cumbersome, with users complaining that the app is less reliable when they are not connected to Wi-Fi."
  }
]
```

GET /api/version-wise

Returns the version-wise summaries

Example response

```
[
  {
    "version": "7.5.0",
    content: "Customers appreciate the enhanced streaming quality and reduced buffering times in Version 7.5.0. The app now loads faster, and many users have noticed a smoother playback experience, especially on older devices. The update also introduced a more intuitive interface, making it easier to navigate and find content.\nHowever, some users reported that the update broke the casting feature, preventing them from streaming content to their TVs via Chromecast. Others found that certain shows they had downloaded for offline viewing before the update were no longer accessible, causing frustration. Additionally, some users noted that the app occasionally freezes when switching between profiles, which disrupted their experience."
  },
  {
    version: "8.1.2",
    content: "Users were pleased with the new customization options introduced in Version 8.1.2. The ability to rearrange their “Continue Watching” list and create personalized categories for their favorite shows was well-received. Many also appreciated improvements to the search functionality, which made it easier to find obscure or niche content.\nOn the downside, some users experienced issues with the audio sync, where the sound would lag behind the video during playback. The update also seemed to increase the app’s battery usage, particularly on older smartphones, leading to quicker battery drain. Additionally, a few users reported glitches in the subtitles, where they would disappear or display incorrectly during shows."
  }
]
```

GET /api/distractions

Returns the distractions data

Example response

```
[
  {
    type: "Actionable",
    platform: "Play Store",
    content: "The streaming quality is excellent, but the app freezes whenever I try to use subtitles."
  },
  {
    type: "Non-actionable",
    platform: "App Store",
    content: "I love Netflix! Always my go-to for a good movie night."
  }
]
```

GET /api/topic-tally

Returns the topic tally data

Example response

```
[
  {
    topic: "Content Library and Variety",
    tally: [
      {
        month: "Mar 2024",
        tally: 15,
      },
      {
        month: "Apr 2024",
        tally: 18,
      }
    ]
  },
  {
    topic: "Streaming Quality",
    tally: [
      {
        month: "Mar 2024",
        tally: 15,
      },
      {
        month: "Apr 2024",
        tally: 18,
      }
    ]
  }
]
```

GET /api/keyword-tally

Returns the keyword tally data

Example response

```
[
  {
    topic: "Buffering",
    tally: [
      {
        month: "Mar 2024",
        tally: 15,
      },
    ]
  }
]
```

```
    {
      month: "Apr 2024",
      tally: 18,
    }
  ]
},
{
  topic: "Download",
  tally: [
    {
      month: "Mar 2024",
      tally: 15,
    },
    {
      month: "Apr 2024",
      tally: 18,
    }
  ]
},
]
```

GET /api/unique-problems

Returns the unique problems tally data

Example response

```
[
  {
    topic: "Problem 1",
    tally: 20
  },
  {
    topic: "Problem 2",
    tally: 53
  },
]
```
